**Make: Wearable Electronics** Jul 24 2019 What if your clothing could change color to complement your skin tone, respond to your racing heartbeat, or connect you with a loved one from afar? Welcome to the world of shoes that can dynamically shift your height, jackets that display when the next bus is coming, and neckties that can nudge your business partner from across the room. Whether it be for fashion, function, or human connectedness, wearable electronics can be used to design interactive systems that are intimate and engaging. Make: Wearable Electronics is intended for those with an interest in physical computing who are looking to create interfaces or systems that live on the body. Perfect for makers new to wearable tech, this book introduces you to the tools, materials, and techniques for creating interactive electronic circuits and embedding them in clothing and other things you can wear. Each chapter features experiments to get you comfortable with the technology and then invites you to build upon that knowledge with your own projects. Fully illustrated with step-by-step instructions and images of amazing creations made by artists and professional designers, this book offers a concrete understanding of electronic circuits and how you can use them to bring your wearable projects from concept to prototype.

**Carl Weber's Kingpins: Harlem** Jun 02 2020 Kleigh never wanted Tron to fall in love with her, or vice versa. She isn't who he thinks she is, but how can she tell him that the kingpin he is gunning for, Kevin "Klax" Turner, is her big brother? She is the water to his fire and the calm to his storm. Never in his 26 years of life did Tron think he would find his equal, but Kleigh is exactly that. Her beauty speaks to his eyes, while her mind whispers to his soul. He can't imagine anybody else wearing the crown as queen after he kills the king of Harlem and takes over the throne.

When push comes to shove and her secret comes to light, Kleigh is forced to pick a side. That choice is what ignites the fire to a war of savages . . . a fire that can only be put out by blood.

*If I Wake* Jul 04 2020 Will is sixteen year old Lucy's best friend. Their lives intersect in dreams, where destiny pulls them together through different times in history. Even though their meetings are more real to Lucy than the present, Lucy is uncertain if Will exists outside her mind. Lucy's mum thinks there is something wrong when Lucy sleeps for days at a time. She is so caught up with finding a cure she doesn't see the real problem. Lucy is bullied at school and is thinking of ending her life. When the bullying goes too far and Lucy ends up in a coma, only Will can reach her. But how do you live when the only person who can save you doesn't exist?

**Foundation Flash CS4 for Designers** Dec 09 2020 If you're a Flash designer looking for a solid overview of Flash CS4, this book is for you. Through the use of solid and practical exercises, you will soon master the fundamentals of this fourth edition of the Adobe Flash authoring tool. Using a series of carefully developed tutorials, you will be led from basic Flash CS4 techniques to the point where you can create animations, MP3 players, and customized Flash video players in no time. Each chapter focuses on a major aspect of Flash, and then lets you take the reins in a "Your Turn" exercise to create something amazing with what you've learned. This book focuses on the core skill set you need to feel at home with Flash CS4, and also introduces you to some of the biggest names in today's Flash community through interviews and actual "How To" examples, so you can learn from the masters. You will start by studying the Flash CS4 interface, and while you're at it, you'll be guided toward mastery of the fundamentals, such as movie clips, text, and graphics, which will lead you into some of the more fascinating aspects of Flash, including audio, video, animation, and 3D transformations. By the time you finish, you will have created an MP3 player and a Flash video player, been introduced to the basics of ActionScript 3.0, learned how to combine Flash with XML, styled Flash text with CSS, created animated scenes, and worked your way through a host of additional projects. All of these exercises are designed to give you the knowledge necessary to master Flash CS4 from the ground up. If you're already a seasoned Flash designer, this book will get you up to speed with the fourth version in relatively short order. This book covers all of the new Flash CS4 features, such as the new animation and 3D tools, the new Adobe Media Encoder, and a pair of the coolest new additions to the tools panel: a spray brush tool and a deco tool. You can discover more about this book, download source code, and more at the book's companion website: [www.foundationflashcs4.com](http://www.foundationflashcs4.com).

**Breaking Down Barriers** Feb 08 2021 The Cambridge Workshops on Universal Access and Assistive Technology (CWUAAT) is one of the few gatherings where people interested in inclusive design, across different fields, including designers, computer scientists, engineers, architects, ergonomists, ethnographers, policymakers and user communities, meet, discuss, and collaborate. CWUAAT has also become an international workshop, representing diverse cultures including Portugal, Germany, Trinidad and Tobago, Canada, Australia, China, Norway, USA, Belgium, UK, and many more. The workshop has five main themes based on barriers identified in the developing field of design for inclusion: I Breaking Down Barriers between Disciplines II Breaking Down Barriers between Users, Designers and Developers III Removing Barriers to Usability, Accessibility and Inclusive Design IV Breaking Down Barriers between People with Impairments and Those without V Breaking Down Barriers between Research and Policy-making In the context of developing demographic changes leading to greater numbers of older people and people living with impairments, the general field of inclusive design research strives to relate the capabilities of the population to the design of products, services, and spaces. CWUAAT has always had a successful multidisciplinary focus, but if genuine transdisciplinary fields are to evolve from this, the final barriers to integrated research must be identified and characterised. Only then will benefits be realised in an inclusive society. Barriers do not arise from impairments themselves, but instead, are erected by humans, who often have not considered a greater variation in sensory, cognitive and physical user capabilities. Barriers are not only technical or architectural, but they also exist between different communities of professionals. Our continual goal with the CWUAAT workshop series is to break down barriers in technical, physical, and architectural design, as well as barriers between different professional communities.

*Towards an Understanding of Tinnitus Heterogeneity* Jun 26 2022 Tinnitus is the perception of a sound when no external sound is present. The severity of tinnitus varies but it can be debilitating for many patients. With more than 100 million people with chronic tinnitus worldwide, tinnitus is a disorder of high prevalence. The increased knowledge in the neuroscience of tinnitus has led to the emergence of promising treatment approaches, but no uniformly effective treatment for tinnitus has been identified. The large patient heterogeneity is considered to be the major obstacle for the development of effective treatment strategies against tinnitus. This eBook provides an inter- and multi-disciplinary collection of tinnitus research with the aim to better understand tinnitus heterogeneity and improve therapeutic outcomes.

*Electronic Discourse in Language Learning and Language Teaching* Dec 21 2021 New technologies are constantly transforming traditional notions of language use and literacy in online communication environments. While previous research has provided a foundation for understanding the use of new technologies in instructed second language environments, few studies have investigated new literacies and electronic discourse beyond the classroom setting. This volume seeks to address this gap by providing corpus-based and empirical studies of electronic discourse analyzing social and linguistic variation as well as communicative practices in chat, discussion forums, blogs, and podcasts. Several chapters also examine the assessment and integration of new literacies. This volume will serve as a valuable resource for researchers, teachers, and students interested in exploring electronic discourse and new literacies in language learning and teaching.

**Dancing with the Pole** Aug 05 2020 Being a dancer/stripper is no easy walk in the park. The people you meet are sometimes the ones you try to avoid in everyday life. But it also can be fun and exciting, depending on who you meet. This book is my diary of my experiences working at a bikini bar in California. I share my conversations with customers as well as with other girls in the dressing room. I give light to our world because no one really knows what we go through as dancers, mothers, daughters, friends, and even sugar babies. From arguing with each other about what was said behind someone's back, to being jealous about a certain customer. This book shares all the juicy details you would want to hear from a dancer/stripper.
