The Cause May 11 2021 The definitive history of American postwar liberalism, told through the lens of those who brought it to life. Liberalism stands proudly at the center of American politics and culture. Driven by passion for social justice, tempered by respect for the difficulty of change, liberals have struggled to end economic inequality, racial discrimination, and political repression. Liberals have fueled their cause with the promise of American life and visions of national greatness, seeking to transform the White House; the halls of Congress, the courts, the worlds of entertainment, law, media, and the course of public opinion. Bestselling author, journalist, and historian Eric Alterman, together with historian Kevin Mattson, traces the history of liberal ideals through the lives and struggles of fascinating personalities. The Cause tells the remarkable story of politicians, intellectuals, visionaries, activists, and public personalities battling for the heart and soul of the nation. The first full-scale treatment of postwar liberalism, The Cause offers an epic saga driven by stories of grand aspirations, principled ambitions, tragic flaws, and the ironies of history of the people who fought for America to live up to the highest ideals of its history.

New Perspectives on Irish English Mar 09 2021 This volume brings together current research by international scholars on the varieties of English spoken in Ireland. The papers apply contemporary theoretical and methodological approaches and frameworks to a range of topics. A number of papers explore the distribution of linguistic features in Irish English, including the evolution of linguistic structures in Irish English and linguistic change in progress, employing broadly quantitative sociolinguistic approaches. Pragmatic features of Irish English are explored through corpus linguistics-based analysis. The construction of linguistic corpora using written and recorded material form the focus of other papers, extending and analyzing the growing range of corpus material available to researchers of varieties of English, including diaspora varieties. Issues of language and identity in contemporary Ireland are explored in several contributions using both qualitative and quantitative methods. The volume will be of interest to linguists generally, and to scholars with an interest in varieties of English.

A Biographical Bibliography. Explorers, Scientists & Visitors In the World's Karst 852 BC to the Present May 31 2020 To je zelo dolgo?asna knjiga. Tako kot slovar vsebuje samo dejstva: dejstva, ki jih ni mogoče najti drugje. Ljudje, ki so pomembni za preu?evanje jam in krasa, so znani po tem, kaj so po?eli, kaj so napisali in na koga so vplivali. Toda ve?krat o njih poznamo zgolj ime. Morda o nekaterih vemo tudi kaj ve?, med njimi so kralji, romanopisci ali zdravniki. Nekateri, denimo Darwin ali Freud, so svet celo spremenili, toda ve?noma so imeli le neizstopajo?e normalno življenje, med katerim so tudi raziskovali, preu?evali ali pisali o jamah. To so tista življenja, o katerih je težko najti kaj ve?. V knjigi je 4634 gesel, ki vsebujejo podatke iz rojstnih listov, osmrtnic, neobjavljenih pisem in omembe drugih ljudi. Sele ta širši pogled iz njih naredi prave ljudi. V nekaterih primerih je bilo njihovo zanimanje za jame del njihovega poklicnega življenja. V mnogih drugih le spodbuda in sprostitev v sicer napornem življenju. Toda v vsakem primeru so ista oseba in isti možgani uživali oboje: in oboje ju je osebnostno izoblikovalo. Razumemo jih lahko le s pomo?jo tukaj zbranih bibliografskih virov.

International Heritage and Historic Building Conservation Sep 27 2022 The majority of books in English on historic building conservation and heritage preservation training are often restricted to Western architecture and its origins. Consequently, the history of building conservation, the study of contemporary paradigms and case studies in most universities and within wider interest circles, predominantly in the UK, Europe, and USA focus mainly on Europe and sometimes the USA, although the latter is often excluded from European publications. With an increasingly multicultural student body in Euro-American universities and with a rising global interest in heritage preservation, there is an urgent need for publications to cover a larger geographical and social area including not only Asia, Australia, Africa and South America but also previously neglected countries in Europe like the new members of the European Community and the northern neighbour of the USA, Canada. The inclusion of the 'other' in built environment education in general and in building conservation in particular is a pre-requisite of cultural interaction and widening participation. International Heritage and Historic Building Conservation assesses successful contemporary conservation paradigms from around the world. The book evaluates conservation case studies from previously excluded areas of the world to create an integrated account of Historic Building Conservation that crosses the boundaries of language and culture and sets an example for further inclusive research. Analyzing the influence of financial constraints, regional conflicts, and cultural differences on the heritage of disadvantaged countries, this leading-edge volume is essential for researchers and students of heritage studies interested in understanding their topics in a wider framework.

On the End of Privacy Sep 15 2021 In preparation for this book, and to better understand our screen-based, digital world, Miller only

accessed information online for seven years. On the End of Privacy explores how literacy is transformed by online technology that lets us instantly publish anything that we can see or hear. Miller examines the 2010 suicide of Tyler Clementi, a young college student who jumped off the George Washington Bridge after he discovered that his roommate spied on him via webcam. With access to the text messages, tweets, and chatroom posts of those directly involved in this tragedy, Miller asks: why did no one intervene to stop the spying? Searching for an answer to that question leads Miller to online porn sites, the invention of Facebook, the court-martial of Chelsea Manning, the contents of Hillary Clinton's email server, Anthony Weiner's sexted images, Chatroulette, and more as he maps out the changing norms governing privacy in the digital age.

The English Prison Health System After a Decade of Austerity, 2010-2020 Aug 14 2021 Austerity has reconfigured and scaled back the governance and delivery of public services and negatively affected society's most vulnerable groups. This book opens up the closed world of English prisons to examine its impact on prison health governance and healthcare delivery. It argues that austerity has been a decade-long, large-scale political experiment that has caused debt to balloon, eroded the prison health system and perpetuated a cycle of punishment resulting in sicker prisoners. In short, austerity has violated prisoners' human rights. Drawing on interviews and data from existing longitudinal and economic analyses, the book demonstrates how austerity has resulted in high rates of recidivism, diminished what remains of the welfare state, and increased inequality and punitiveness. Despite a decade of failure, there is a marked political reluctance to dispense with austerity, and the governmental juggernaut continues to produce the same result. As the spectre of recession increases, caused in part by Brexit and COVID-19, these failures are ever more perilous. This book blends the interdisciplinary perspectives of criminology, public health, sociology, law, social policy, politics, and economics to enable greater understanding of the impact of austerity on health governance, prison healthcare, the prison workforce, and prisoners' health and safety. It challenges current policy, practice and thinking, and is a must read for anyone who wants to reflect on how the political economic structure can affect the governance and delivery of healthcare services in marginalised settings, beyond prisons, and indeed beyond England.

Sprachwandel oder Sprachverfall - Anglizismeneinfluss ins Deutsche Nov 24 2019 Studienarbeit aus dem Jahr 2011 im Fachbereich Germanistik - Linguistik, Note: 1,5, Universität Mannheim, Sprache: Deutsch, Abstract: Die folgende Hausarbeit handelt um Sprachwandelphänomene, Faktoren, die Sprachwandel verursachen können und um Anglizismen im deutschen Wortgut. Das oben genannte Gedicht Wider das Sprachpanschen von Gerhard H. Junker stellt eine klare Stellung zu Anglizismen dar, denn „Deutsch und Englisch sind wie Weine./ sie erblühen nur alleine“. Die starke Distanz zu Anglizismen wird deutlich, denn diese quälen nicht nur die Enkelkinder des englischen Genies Shakespeare, sondern bereiten auch Probleme bei der Verständigung auf, weil sie kaum einer versteht. Auch die deutsche Sprache wird durch Anglizismen verschandelt, dabei spielen die Sportreporter nicht weniger eine Rolle. Ein Lösungsvorschlag ist dennoch gegeben, und zwar soll der rote Wein, rot bleiben und nicht mit dem weißen gemischt werden. Also eine Differenzierung von Englisch und Deutsch. Die Frage, ob eine klare Differenzierung möglich ist, soll zunächst einmal offen bleiben, denn darum soll es unter anderem auch in dieser Hausarbeit gehen. Desweiteren werden auch Fragen geklärt, ob Anglizismen einen Sprachverfall oder einen Sprachwandel verursachen, ob es eine Mischung von beidem möglich wäre oder ob eine total neue Sprache bzw. Dialekt sich heraus kristallisiert. Im theoretischen Teil wird das Augenmerk auf die Sprachwandelphänomene gelegt. Es werden lediglich nur die drei wichtigsten Ursachen bzw. Kriterien für Sprachwandel dargestellt. Dazu zählen die Sprachliche Variation, Sprachliche Innovation und Sprachliche Ökonomie. Anschließend wird in die Invisible- Hand Theorie eingegangen. Im analytischen Teil hingegen wird die Ära der Anglizismen tiefergründiger vorgestellt. Was sind Anglizismen, Fremd- und Lehnwörter? Wie sind diese entstanden? Was für einen Einfluss haben sie in verschiedenen sozialen Lebensbereichen? Wie reagiert das deutsche Volk? Ist eine starke Ablehnung oder Integration der Anglizismen erkennbar? Demnach lautet die Leitfrage für diese Hausarbeit: Wie ist die Haltung verschiedener deutscher Bevölkerungsgruppen gegenüber dem Sprachwandel, dass von Anglizismen verursacht wird?

The Unrecognised Peril Jul 01 2020 Acknowledging the importance of non traditional security in the wider debate, this book looks at one significant aspect namely, environmental security. The book discusses different issues of theoretical and practical import through various chapters that deal with the general need for study on human and environmental security, its degradation due to a variety of factors like climate change, war, pollution and resource utilisation. Moving from a regional South Asian focus the book narrows down to specific cases within India and the region at large to highlight the widespread effect anthropogenic factors have had on environmental security. A diverse set of articles from many authors has meant a comprehensive perspective on a vital global and national concern.

Deception Feb 08 2021 From the capture of Sidney Reilly, the 'Ace of Spies', by Lenin's Bolsheviks in 1925, to the deportation from the USA of Anna Chapman, the 'Redhead under the Bed', in 2010, Kremlin and Western spymasters have battled for supremacy for nearly a century. In Deception Edward Lucas uncovers the real story of Chapman and her colleagues in Britain and America, unveiling their clandestine missions and the spy-hunt that led to their downfall. It reveals unknown triumphs and disasters of Western intelligence in the Cold War, providing the background to the new world of industrial and political espionage. To tell the story of post-Soviet espionage, Lucas draws on exclusive interviews with Russia's top NATO spy, Herman Simm, and unveils the horrific treatment of a Moscow lawyer who dared to challenge the ruling criminal syndicate there. Once the threat from Moscow was international communism; now it comes from the siloviki, Russia's ruthless "men of power." "The outcome," Lucas argues, "will determine whether the West brings Russia toward its standards of liberty, legality, and cooperation, or whether Russia will shape the West's future as we accommodate (or even adopt) the authoritarian crony-capitalism that is the Moscow regime's hallmark."

On Meaning and Mental Representation Mar 21 2022 This book is about language in STEM research and about how it is thought about: as something that somehow refers to something else not directly accessible, often «meaning», «mental representation», or «conception». Using the analyses of real data and analyses of the way certain concepts are used in the scientific literature, such as "meaning," this book reframes the discussion about «meaning», «mental representation», and «conceptions» consistent with the pragmatic approaches that we have

become familiar with through the works of K. Marx, L. S. Vygotsky, M. M. Bakhtin, V. N. Voloshinov, L. Wittgenstein, F. Mikhailov, R. Rorty, and J. Derrida, to name but a few. All of these scholars, in one or another way, articulate a critique of a view of language that has been developed in a metaphysical approach from Plato through Kant and modern constructivism; this view of language, which already for Wittgenstein was an outmoded view in the middle of the last century, continuous to be alive today and dominating the way language is thought about and theorized.

Intimate Rivals Nov 05 2020 No country feels China's rise more deeply than Japan. Through intricate case studies of visits by Japanese politicians to the Yasukuni Shrine, conflicts over the boundaries of economic zones in the East China Sea, concerns about food safety, and strategies of island defense, Sheila A. Smith explores the policy issues testing the Japanese government as it tries to navigate its relationship with an advancing China. Smith finds that Japan's interactions with China extend far beyond the negotiations between diplomats and include a broad array of social actors intent on influencing the Sino-Japanese relationship. Some of the tensions complicating Japan's encounters with China, such as those surrounding the Yasukuni Shrine or territorial disputes, have deep roots in the postwar era, and political advocates seeking a stronger Japanese state organize themselves around these causes. Other tensions manifest themselves during the institutional and regulatory reform of maritime boundary and food safety issues. Smith scrutinizes the role of the Japanese government in coping with contention as China's influence grows and Japanese citizens demand more protection. Underlying the government's efforts is Japan's insecurity about its own capacity for change and its waning status as the leading economy in Asia. For many, China's rise means Japan's decline, and Smith suggests how Japan can maintain its regional and global clout as confidence in its postwar diplomatic and security approach diminishes.

The Awakening of Muslim Democracy Aug 02 2020 Why and how did Islam become such a political force in so many Muslim-majority countries? In this book, Jocelyne Cesari investigates the relationship between modernization, politics, and Islam in Muslim-majority countries such as Egypt, Iraq, Pakistan, Tunisia, and Turkey - countries that were founded by secular rulers and have since undergone secularized politics. Cesari argues that nation-building processes in these states have not created liberal democracies in the Western mold, but have instead spurred the politicization of Islam by turning it into a modern national ideology. Looking closely at examples of Islamic dominance in political modernization, this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states, and discusses Islam's impact on emerging democracies in the contemporary Middle East.

New Beginning in US-Muslim Relations Jun 12 2021 This book carries out a comparative study of the US response to popular uprisings in the Middle East as an evaluation of President Barack Obama's foreign policy commitments. In 2009, Obama publicly pledged "a new beginning in US-Muslim relations," causing eager expectation of a clear shift in US foreign policy after the election of the 44th president of the United States. However, the achievement of such a shift was made particularly difficult by the existence of multiple, and sometimes conflicting, US interests in the region which influenced the Obama administration's response to the popular uprisings in five Muslim-majority countries: Egypt, Bahrain, Yemen, Libya, and Syria. After providing a detailed analysis of the traditional features of both US foreign policy rhetoric and practice, this book turns its focus to the Obama administration's response to the 2011 Arab Awakening to determine whether Obama's foreign policy has indeed brought about a new beginning in US-Muslim relations.

Constructing the Welfare State in the British Press Oct 04 2020 Analysing political discourse in the British press during a time of crisis and austerity, this book examines how the concept of the welfare state has been constructed between 2008 and 2015. At a time when the financial crisis and government policies have put the welfare state under increased pressure, a corpus from four British newspapers from across the political spectrum - the Guardian, Daily Mirror, Daily Mail, and Daily Telegraph - is brought together to investigate the political debate on its evaluation and the ambiguity about its exact definition. Combining two theoretical approaches, Malgorzata Paprota outlines the figurative models and scenarios relevant to this element of the political system. The discourse-historical approach to discourse analysis is used to establish what the welfare state is, tracing the boundaries of the concept and which elements of political reality are explicitly associated with it. Conceptual metaphor theory is then used to explore the figurative conceptualisations of the welfare state. Together, this book shows the discursive construction, and shifting boundaries and metaphors, of the welfare state by the British press and its use in current political debates.

Aging May 23 2022 One of the sharpest criticisms within and outside of Hollywood is that it provides no strong, beautiful, inspirational parts for aging female actors. They merely disappear while aging male actors get action hero and older Lothario parts. This collection of essays leaves the controversies of Hollywood ageism and sexism behind to look at other cultures and how they treat the aging. Readers will examine the effect of aging populations within other societies. They will evaluate policy solutions and attitudes. They will also learn about health issues in relation to aging. Readers will learn from Europe, China, Japan and several other cultures about their viewpoints on aging.

The Routledge Companion to Accounting Communication Jan 27 2020 One of the prime purposes of accounting is to communicate and yet, to date, this fundamental aspect of the discipline has received relatively little attention. The Routledge Companion to Accounting Communication represents the first collection of contributions to focus on the power of communication in accounting. The chapters have a shared aim of addressing the misconception that accounting is a purely technical, number-based discipline by highlighting the use of narrative, visual and technological methods to communicate accounting information. The contents comprise a mixture of reflective overview, stinging critique, technological exposition, clinical analysis and practical advice on topical areas of interest such as: The miscommunication that preceded the global financial crisis The failure of sustainability reporting The development of XBRL How to cut clutter With an international coterie of contributors, including a communication theorist, a Big Four practitioner and accounting academics, this volume provides an eclectic array of expert analysis and reflection. The contributors reveal how accounting communications represent, or misrepresent, the financial affairs of entities, thus presenting a state-of-the-art assessment on each of the main facets of this important topic. As such, this book will be of interest to a wide range of readers, including: postgraduate students in management and accounting; established researchers in the fields of both accounting and communications; and accounting practitioners.

Legal Accountability and Britain's Wars 2000-2015 Jun 19 2019 This book discusses the manner in which Britain's wars, which took place between 2000 and 2015, have interacted with the relevant principles of international law and English law for the purpose, primarily, of considering legal accountability. During a debate in the House of Lords in 2005 a former Chief of the Defence Staff commented that 'the Armed Forces are under legal siege.' The book will discuss the major legal issues which have arisen, ranging from the various votes in Parliament to go to war, the constitutional relationship between ministers and senior commanders, the right under international law to use force, the influence of human rights law, the role of the courts in England (including the coroners' courts), to the legal regime applying to the conduct of UK military operations. It will assess critically whether the armed forces will now have to accept that operations conducted outside the UK are subject to greater legal scrutiny than previously and whether, if this is the case, it is likely to hinder their future military activities. This book will be of great interest to scholars of international law, the law of armed conflict, military studies and international relations, as well as to those with a professional or other interest in the subject matter.

The Changing East Asian Security Landscape Oct 24 2019 The topic of this book deals with a highly relevant empirical issue: East Asian security and the dynamics of the respective governance structure or architecture are not only of regional but of global concern. Since the pivot of the American pivot to East Asia and other external actor's responses to it the security architecture has changed in form, size and function. In order to analyze and explain these changes, hypotheses derived from IR middle range theories (i.e. soft and hard balancing) will be applied to cases of bilateral and multilateral security governance in East Asia.
