The Road Not Taken and Other Poems Oct 28 2022 Frost's early poems, selected by poet David Orr for the centennial of "The Road Not Taken" A Penguin Classics Deluxe edition For one hundred years, Robert Frost's "The Road Not Taken" has enchanted and challenged readers with its deceptively simple premise—a person reaches a fork in the road, facing a choice full of doubt and possibility. The Road Not Taken and Other Poems presents Frost's best-loved poem along with other works from his brilliant early years, including such poems as "After Apple-Picking," "The

Oven Bird," and "Mending Wall." Award-winning poet and critic David Orr's introduction discusses why Frost remains so central (if often misunderstood) in American culture and how the beautiful intricacy of his poetry keeps inviting generation after generation to search for meaning in his work. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts

enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Deceived By The Others, Stalking The Others Aug 26 2022 They are the Others--the vampires, mages, and werewolves once thought to exist only in our imaginations. Now they're stepping out of the shadows, and nothing in our world will ever be the same again... Hunted By The Others In A Town Like This, Being A P.I. Can Be Murder Shiarra Waynest's detective work was dangerous enough when her client base was strictly mortal. But ailing finances have forced her to accept a lucrative case that could save her firm--if it doesn't kill her first. Shiarra has signed on to work for a high-level mage to recover an ancient artifact owned by one of New York's most powerful vampires. As soon as Shiarra meets sexy, mesmerizing vamp Alec Royce, she knows her assignment is even more complicated than she thought. With a clandestine anti-Other group trying to recruit her, and magi being eliminated, Shiarra needs back-up and enlists her ex-boyfriend--a werewolf whose non-furry form is disarmingly appealing--and a nerdy mage with surprising talents. But it may not be enough. In a city where the undead roam, magic rules, and even the Others aren't always what they seem, Shiarra has just become the secret weapon in a battle between good and evil--whether she likes it or not... Taken By The Others Once, New York P.I. Shiarra Waynest's most pressing problem was keeping her agency afloat. Now she's dealing with two dangerous, seductive vampires who have been enemies for centuries. The only thing Max Carlyle and Alec Royce agree on is that they both want Shia--for very different reasons. Max is determined to destroy Shia for killing his progeny, while Royce's interest is a lot more

personal. That's not sitting well with Shia's werewolf boyfriend, Chaz. As the feud between Max and Royce gets ever more deadly, a powerful vampire-hunting faction is urging Shia to join their side. Shia has always believed vamps were the bad guys, but she's discovering unexpected shades of grey that are about to redefine her friends, her loyalties--and even her desires... Deceived By The Others Shiarra's relationship with sexy werewolf Chaz may be somewhat unconventional. Still, after a few bumps, Shia is finally ready to get serious. That means meeting family--or in this case, bringing Chaz's entire werewolf pack along for a rollicking full-moon weekend in the Catskills. Soon after they arrive, threatening notes appear, warning Chaz to go home. Then their cabin is ransacked. Shia starts digging to find out whether it's the work of upstart teenaged werewolves or something more sinister. Yet as rumors about her vampire connections arouse the pack's hostility, Shia has to contend with other dangers. Not just from an adversary about to make his fatal intentions known, but from a threat that's even closer than she knows... Stalking The Others Once, she was one of the good guys--or as close as a New York P.I. can get. Then Shiarra Waynest was drawn into the world of the Others. Every faction has its own loyalties and agenda. And Shia's recent betrayal by her ex-boyfriend means that she may be on the verge of becoming a rogue werewolf at the next full moon...

Laws Relating to Fur-bearing Animals, 1918 Mar 21 2022 "In the fiscal year ended June 30, 1917 the foreign trade of the United States in raw and manufactured furs reached nearly, if not fully, the high level of years preceding the war. The imports were valued at \$21,553,375, while the exports amounted to \$15,729,160, a sum exceeded in only one previous year, 1913 when they were \$28,389,586. Home manufacture and utilization of American furs has grown enormously since the beginning of the war. The large export trade of the past year shows, therefore, a production of pelts of unprecedented value, in spite of the fact that the actual number of skins collected must have been less than in previous years. Many former trappers were more profitably employed in other industries, and many were deterred from plying their vocation by the increased restrictions on trapping, especially the costly nonresident licenses. Trapping restrictions properly enforced and limiting the taking of fur to prescribed seasons will result not only in conserving the fur supply but in greatly increasing the quality and value of the annual catch." -- p.2

Among Other Things, I've Taken Up Smoking Apr 22 2022 Critically acclaimed by reviewers across the country, Aoibheann Sweeney's beautifully written debut novel is a story of the profound human need for intimacy. For Miranda, the adolescence spent in her fog-shrouded Maine home has been stark and isolated-alone with her troubled father, a man consumed with his work translating Ovid's *Metamorphoses*, her mother mysteriously gone from their lives. Now, having graduated from high school, Miranda's father arranges for her to stay with old friends in Manhattan, and she embarks on a journey that will open up her father's past and her own world, in ways she cannot begin to imagine.

Measures Taken and Other Lehrstücke Jul 25 2022 The Lehrstücke (or 'learning-plays') lie at the heart of Brechtian theatre. Written during 1929 and 1930, years of far-reaching political and economic upheaval in Germany and the period of Brecht's most sharply Communist works, these short plays show an abrupt rejection of most of the trappings of conventional theatre. The Lehrstücke are spare and highly formalized pieces intended for performance by amateurs, on the principle that the moral and political lessons contained in them can best be taught by participation in an actual production. There is nothing in the drama of the twentieth century to match the precision of their language and the economy of their theatrical technique.
