[The Routledge Companion to the Makers of Global Business](#)     Sep 18 2021 The Routledge Companion to the Makers of Global Business draws together a wide array of state-of-the-art research on multinational enterprises. The volume aims to deepen our historical understanding of how firms and entrepreneurs contributed to transformative processes of globalization. This book explores how global business facilitated the mechanisms of cross-border interactions that affected individuals, organizations, industries, national economies and international relations. The 37 chapters span the Middle Ages to the present day, analyzing the emergence of institutions and actors alongside key contextual factors for global business development. Contributors examine business as a central actor in globalization, covering myriad entrepreneurs, organizational forms and key industrial sectors. Taking a historical view, the chapters highlight the intertwined and evolving nature of economic, political, social, technological and environmental patterns and relationships. They explore dynamic change as well as lasting continuities, both of which often only become visible – and can only be fully understood –

when analyzed in the long run. With dedicated chapters on challenges such as political risk, sustainability and economic growth, this prestigious collection provides a one-stop shop for a key business discipline.

**Makers, Crafters, Educators** Jan 11 2021 *Makers, Crafters, Educators* brings the do-it-yourself (DIY) ethos of maker and crafter movements into educational environments, and examines the politics of cultural change that undergird them. Addressing making and crafting in relation to community and schooling practices, culture, and place, this edited collection positions making as an agent of change in education. In the volume's five sections—Play and Hacking, Access and Equity, Interdependence and Interdisciplinarity, Cultural and Environmental Sustainability, and Labor and Leisure—authors from around the world present a collage of issues and practices connecting object making, participatory culture, and socio-cultural transformation. Offering gateways into cultural practices from six continents, this volume explores the participatory culture of maker and crafter spaces in education and reveals how community sites hold the promise of such socio-cultural transformation.

**Transforming Leaders Into Progress Makers** Dec 10 2020 *Weaving together* original research, novel strategies and tactics, and stories of successful leaders, this book provides insight into how to become a progress-making leader. Written by an academic and a business executive, the book provides actionable ideas grounded in sound research and tested in real organizations.

**We are the Weather Makers** Oct 27 2019 Tim Flannery's international bestseller *The Weather Makers* has sold over a million copies and influenced politicians, movie stars, even business leaders - after reading it, Sir Richard Branson pledged more than 3 billion dollars towards developing sustainable energy sources. *We Are the Weather Makers* is a concise and revised edition that will allow readers aged from nine to ninety to learn the real facts about the biggest question of our generation. Flannery takes us on a journey through history and around the globe, writing about hurricanes and droughts, coral reefs and polar bears, and wind energy and nuclear power. He shows us how, as we continue to heat the planet, humanity faces unprecedented dangers and challenges. *We are the weather makers now.*

[The Cider Maker's Manual](#) May 27 2022 For most of its early history, America was awash in cider, the most popular drink of the 18th and 19th centuries. Originally a farmer's drink, it was a staple on farms and plantations in the colonies and an intimate part of everyday life for all citizens from Revolutionary War soldiers to elite landowners and officials. John Adams drank it every morning to settle his stomach, and politicians gave it away at rallies to gain popularity. Although not much is known about the author, Jonathan Buell's guide includes everything you need to know about homemade cider from growing the apples to building cider mills and presses, fermenting and refining the cider, converting it to wine and champagne, and creating summer beverages and fancy vinegars. This edition of *The Cider Maker's Manual* was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the Society is a research library documenting the

life of Americans from the colonial era through 1876. The Society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection includes approximately 1,100 volumes.

Life: A User's Manual Jan 23 2022 How should I live? What is my purpose? Can I find happiness? Ever felt as though life would be simpler if it came with an instruction manual? There are no easy answers to the big questions. And life does not follow a straight path from A to B. Since the beginning of time, people have asked questions about how they should live and, from

Ancient Greece to Japan, philosophers have attempted to solve these questions for us. The timeless wisdom that they offer can help us to find our own path. In this insightful, engaging book, renowned existential psychotherapist and philosophical counsellor Antonia Macaro and bestselling philosopher Julian Baggini cover topics such as bereavement, luck, free will and relationships, and guide us through what the greatest thinkers to ever walk the earth have to say on these subjects, from the Stoics to Sartre. Discover advice from the world's greatest thinkers on questions like: Is there a right way to grieve? What is free will? How can we learn from past mistakes? Do we make our own luck?

Reel Rebels: the London Film-Makers' Co-Operative 1966 to 1996

Jul 17 2021

The London FilmMakers Cooperative was founded in 1966 by a group of artists who sought to explore the possibilities of the moving image whilst maintaining autonomy over the production, distribution, and exhibition of their work. Although their films were not overtly political, artists nevertheless expressed their political attitudes by creating nonnarrative films, thereby rejecting conventional narrative structures associated with mainstream, commercial cinema, which they perceived as supporting the dominant ideology in society. A return to narrative in the 1980s coincided with the introduction of British Art Cinema and the art-house films of Derek Jarman, Peter Greenaway, and Sally Potter, all of whom made experimental films in the early days of the London Co-op.

The Coincidence Makers Sep 06 2020 In this genre-bending novel, there is no such thing as chance and every action is carefully executed by highly trained agents. You'll never look at coincidences the same way again. What if the drink you just spilled, the train you just missed, or the lottery ticket you just found was not just a random occurrence? What if it's all part of a bigger plan? What if there's no such thing as a chance encounter? What if there are people we don't know determining our destiny? And what if they are even planning the fate of the world? Enter the Coincidence Makers—Guy, Emily, and Eric—three seemingly ordinary people who work for a secret organization devoted to creating and carrying out coincidences. What the rest of the world sees as random occurrences, are, in fact, carefully orchestrated events designed to spark significant changes in the lives of their targets—scientists on the brink of breakthroughs, struggling artists starved for inspiration, loves to be, or just plain people like you and me... When an assignment of the highest level is slipped under Guy's door one night, he knows it will be the most difficult and dangerous coincidence he's ever had to fulfill. But not even a coincidence maker can see how this assignment is about to change all their lives and teach them the true nature of fate, free will, and the real meaning of love. Part thriller, part mystery, part love story—Kirkus calls Yoav Blum's *The Coincidence Makers* “a smart, unpredictable, and heartfelt adventure story.”

America, the Owner's Manual May 15 2021 In 2016, Americans fed up with the political process vented that frustration with their votes. Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade. Democrats nearly selected a self-described socialist who ran on a populist platform against the influence of big money in politics. While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual, the truth is that we don't have to pin our hopes for greater participation on any one candidate. All of us have a say—if we learn, master and practice the skills of effective citizenship. One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can't fight City Hall. That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn't care what people like them thought. Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles. They describe effective citizenship skills and provide tips from civic experts. Even more importantly, they offer numerous examples of everyday Americans who have used their skills to make democracy respond. The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy. By the end of the book, you will have new confidence that citizen participation is the lifeblood of America -- and will be ready to make governments work for you, not the other way around.
