[Plunkett's Airline, Hotel & Travel Industry Almanac 2008](#) \_\_\_\_ Sep 25 2022 The travel industry has been through exceptional upheaval and change. Plunkett's Airline, Hotel & Travel Industry Almanac will be your complete guide to this fascinating industry. After reeling from the effects of the September 11, 2001 tragedies, the travel business is now emerging as a more streamlined, efficient and focused industry. Many of the biggest, most successful firms are becoming extremely global in nature. Meanwhile, most airlines are struggling to return to profitability, while low-cost providers Southwest Airlines and JetBlue continue to set the standard for air travel. Deregulation is opening up huge travel markets in India and China. On the hotel side, massive management firms, development companies and real estate investment trusts are gaining in scale and influence. The booking of travel online is perhaps the most successful niche of all of the world's e-commerce efforts. Consumers use the Internet to become better informed and to seek bargains. Online sites like Travelocity, Priceline and Orbitz steer millions of consumers toward specific airlines and hotels in a manner that lowers prices and improves satisfaction among consumers. The exciting new reference book (which includes a fully-featured database on CD-ROM) will give you access to the complete scope of the travel industry, including: Analysis of major trends; Market research; Statistics and historical tables; Airlines; Hotel operators; Entertainment destinations such as resorts and theme parks; Tour operators. The largest travel agencies; E-commerce firms; Cruise lines; Casino hotels; Car rental; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. **Humans and Devices in Medical Contexts** Jun 17 2019 This book explores the ways in which socio-technical settings in medical contexts find varying articulations in a specific locale. Focusing on Japan, it consists of nine case studies on topics concerning: experiences with radiation in Hiroshima, Nagasaki, and Fukushima; patient security, end-of-life and high-tech medicine in hospitals; innovation and diffusion of medical technology; and the engineering and evaluating of novel devices in clinical trials. The individual chapters situate humans and devices in medical settings in their given semantic, pragmatic, institutional and historical context. A highly interdisciplinary approach offers deep insights beyond the manifold findings of each case study, thereby enriching academic discussions on socio-technical settings in medical contexts amongst affiliated disciplines. This volume will be of broad interest to scholars, practitioners, policy makers and students from various disciplines, including Science and Technology Studies (STS), medical humanities, social sciences, ethics and law, business and innovation studies, as well as biomedical engineering, medicine and public health.
