The Art of Playing Cards Aug 05 2020 The Art of Playing Cards is your tour guide to a standard deck. This handbook covers the classic games, tricks, and skills you'll need to become an expert card shark. There's something about opening a new pack of cards. It doesn't matter whether you buy them at a filling station to while away a few hours on the road or if they're a classic deck of Bicycle cards bought specifically for a poker night—they smell the same. There's the same whiff of possibility, of hands to play or chances to take, of bets to win and of fun just waiting to be had. THE GAMES: There are thousands of games we could have included, but along with some of the most popular, we've also chosen those we think are the most fun, the most challenging, and the most exasperating. Also, much of the beauty of card games is that they vary so much, and we've included plenty of tips for trying something a bit different. Of course, when faced with so many variations and different games, it would be impossible to include them all here; we only hope that you like the ones we have squeezed in. THE SKILLS: Shuffles, cuts, ribbon spreads, fans, flourishes, false cuts, forces, false shuffles, finger lifts, double lifts... they're all here, explained in a simple step-by-step fashion that makes it easy for anyone to pick them up. THE TRICKS: Here we've concentrated on tricks we think are easy and approachable because there are few things more frustrating than trying to do something that's simply out of your league or utterly beyond your physical abilities. Thus, you won't find any magician's glue or funny specialized decks of cards; there are few props, and no fiendishly complex sleights and palms... and there are definitely no cards up anyone's sleeves. We hope the

result is a book that you'll be able to come back to again and again, whether it's to brush up on your shuffling or because you want to learn a new game or a new trick for the holidays. If you do that, then this book has served its purpose. Oh, and always remember, it's not the cards in your hand that count, it's how you play them.

Lost Tarot of Nostradamus Ebook Jan 10 2021 In 1994 a researcher working in the Italian National Library in Rome discovered a manuscript containing 80 mysterious paintings, believed to have been devised by the mysterious prophet Michael de Nostredame, better known as Nostradamus. The manuscript, never published in his lifetime, was handed down to his son who later presented it to Pope Urban VIII. After that it remained forgotten and neglected. A brief glance at these extraordinary images shows how heavily they draw on the symbolism of Tarot. It is the belief of Tarot experts, Matthews and Kinghan, that Nostradamus was designing his own set of cards, drawing upon the visionary insights gleaned from his prophetic writings and visions. Now this Tarot has been brought to fruition by two modern experts and its secrets revealed for the first time.

Visionary artist Wil Kinghan and New York Times best-selling author and longtime student of Tarot, John Matthews have devised a deck which incorporates Nostradamus' own images, fully updated to make what will surely be judged one of the most important decks of this age. Tarot Cards are not included in the Ebook Edition.

Inzwischen habe ich ca. 20 Bände erworben und freue mich immer wieder, wenn ein neues Buch erscheint. oder: Sämtliche von Jürgen Ruszkowski aus Hamburg herausgegebene Bücher sind absolute Highlights der Seefahrts-Literatur. Dieser Band macht da keine Ausnahme. Sehr interessante und abwechslungsreiche Themen aus verschiedenen Zeitepochen, die mich von der ersten bis zur letzten Seite gefesselt haben! Man kann nur staunen, was der Mann in seinem Ruhestand schon veröffentlicht hat. Alle Achtung!

Mary Higgins Clark & Carol Higgins Clark Ebook Christmas Set Nov 27 2019 Now, in one eBook boxed set, a collection of suspenseful and humorous holiday stories by Mary Higgins Clark, America's Queen of Suspense, and her daughter, bestselling mystery writer Carol Higgins Clark. Deck the Halls Three days before Christmas, Regan Reilly, the dynamic young sleuth featured in the novels of Carol Higgins Clark, meets Alvira Meehan, the famous lottery winner and amateur detective. When a call comes through on Regan's cell phone, telling her that her father and his driver, Rosita Gonzalez, are being held for \$1,000,000 ransom, Alvira insists that Regan allow her to lend a hand in trying to gain their release. While Regan may be a licensed private detective, based in Los Angeles, Alvira has many valuable contacts among the ranks of New York's law enforcement community -- including the head of the NYPD Major Case Squad, Jack "no relation" Reilly. Further complicating the situation is the fact that Regan's mother, the popular and very successful mystery writer Nora Regan Reilly, was hospitalized only the day before with a badly broken leg. Regan must comfort her while trying to meet the harsh demands of her father's kidnapers -- and their tough deadline. The Christmas Thief The folks who picked a beautiful eighty-foot blue spruce from Stowe, Vermont, to be Rockefeller Center's famous Christmas tree don't have a clue that Packy Noonan, a

scam artist just released from prison, hid priceless diamonds in it more than twelve years ago. Anxious to retrieve his loot, Packy breaks parole and heads to Vermont. When he learns that his special tree will be heading to New York City the next morning, he knows he has to act fast. What Packy doesn't know is that Alvirah Meehan, everyone's favorite lottery winner turned amateur sleuth, and Regan Reilly, a savvy young private investigator, are visiting Stowe with their friend Opal, who lost all her lottery winnings in Packy's scam. And just when they're supposed to head home, they learn that the tree is missing . . . and that Opal has disappeared. Dashing Through the Snow In the picturesque village of Branscombe, New Hampshire, the townsfolk are all pitching in to prepare for the first (and many hope annual) Festival of Joy. The night before the festival begins, a group of employees at the local market learn that they have won \$160 million in the lottery. One of their co-workers, Duncan, decided at the last minute, on the advice of a pair of crooks masquerading as financial advisers, not to play. Then he goes missing. A second winning lottery ticket was purchased in the next town, but the winner hasn't come forward. Could Duncan have secretly bought it? Alvirah Meehan, the amateur sleuth, and private investigator Regan Reilly -- have arrived in Branscombe for the festival. They are just the people to find out what is amiss. As they dig beneath the surface, they find that life in Branscombe is not as tranquil as it appears. So much for an old-fashioned weekend in the country!

Understanding Aleister Crowley's Thoth Tarot Feb 29 2020 Understanding Aleister Crowley's Thoth Tarot was his final opus, the culmination of a lifetime of occult study and practice. With artist Lady Frieda Harris, he condensed the core of his teaching - astrology, Qabalah, magick, gematria and numerology, and alchemy- into the 78 cards of the tarot. Although Crowley's own Book of Thoth provides insight into the cards, it is a complicated, dated book. What has been missing, and what Crowley authority Lon Milo DuQuette has created, is an introductory text for the deck. In clear language, DuQuette provides everything you need to know about Crowley's fundamental principles to get the most out of using the Thoth deck. Many use the deck simply because the artwork is so beautiful, but there is so much more to it than that. DuQuette starts with the basic historical background of this extremely popular deck before delving into descriptions of each card in depth,

from both a purely tarot perspective and from an expanded, magickal point of view. Each card is described in detail regarding its straight tarot meaning, which is then expanded upon with all the other attributions Crowley intended. This unique guide will be of great interest to all tarot readers who use the Thoth Tarot- especially those looking for correspondences with other occult systems to enhance their readings- and will be treasured by students of Aleister Crowley's works.
